PARTS MANUFACTURER APPROVAL

Approval No : PMA-03
Initial Date of Issuance : 06 February 2019
Revision 3 Date of Issuance : 21 April 2025
Valid Until : 21 April 2027

This approval is issued to :

Part Manufacturing Approval (PMA) PT. Batam Aero Technic
Lion Village Facility
Pergudangan Bandara Mas Blok E25
Jl. Marsekal Suryadarma M1,
Neglasari - Kota Tangerang, Banten, Indonesia 15127

In accordance with Civil Aviation Safety Regulation (CASR) Part 21 Certification for Product and Parts, subpart K, Directorate General of Civil Aviation (DGCA) has found that approved design submitted by Part Manufacturing Approval (PMA) PT. Batam Aero Technic (herein after referred as The Manufacturer) is applicable to the product(s) on which the article to be installed. Additionally, DGCA has determined that the Manufacturer has established the quality system required by CASR Part 21.307 at Pergudangan Bandara Mas Blok E25, Jl. Marsekal Surya Darma M1, Neglasari - Kota Tangerang, Banten, Indonesia 15127. Accordingly, parts manufacturer approval (PMA) is hereby granted to the Manufacturer to produce replacement articles (or modification articles, as applicable) listed in the enclosed supplement in conformity with DGCA approved design data. Subsequent changes to these design data must be approved in a manner acceptable by Director General.

The following terms and condition apply to this approval :

1. The Manufacturer's quality system, methods, procedures, and manufacturing facilities, including supplier, are subject to DGCA surveillance and investigations. Accordingly, the Manufacturer must advise its suppliers that their facilities are also subject to DGCA surveillance and investigations.
2. The Manufacturer must obtain approval from Director General, prior to relocating or expanding manufacturing facilities, and includes the addition of associates facilities. Additionally, this requirement applies to the Manufacturer's suppliers with major inspection authorization, and to those suppliers who furnish articles or related services

where a determination of safety and conformance to the approved design cannot or will not be made upon receipt at the approved receiving facility.

3. Upon request, the Manufacturer must make available to the DGCA any pertinent information concerning its suppliers who furnish parts/services. This include :
 - a. A description of the part or service;
 - b. Where and by whom the part or service will undergo inspection;
 - c. Any delegation of inspection duties;
 - d. Any delegation of materials review authority;
 - e. The inspection procedures required to be implemented;
 - f. Any direct shipment authority;
 - g. Result of the Manufacturer's evaluation, audit, and/or surveillance of its suppliers;
 - h. The purchase/work order number (or equivalent); and
 - i. Any feedback relative to service difficulties originating at the Manufacturer's suppliers.
4. Parts, appliances, or manufacturing services furnished by any suppliers located in a foreign country may not be used in the production of any article or listed in the enclosed supplement unless :
 - a. That part or service can and will be completely inspected for conformity at the Manufacturer's ROI facility; or
 - b. The DGCA has determined that the location of the foreign supplier facility places no undue burden on the DGCA in administering applicable airworthiness requirements. The Manufacturer must advise the DGCA at least ten working days in advance when intended to use such foreign suppliers to allow DGCA in making such determination.
5. Articles produced under the term of this approval must be permanently marked with identification information as required by CASR Part 45 Identification and Registration Marking. Use the letter 'DGCA-PMA', the name, trademark, or symbol of the company, and the part number. If the DGCA finds the article is too small or impractical to mark, the Manufacturer must attach the information required by CASR 45.15 to the article or its container.
6. This approval is not transferable and it may be withdrawn for any reason that precludes its issuance or whenever the DGCA finds that the quality system is not being maintained. A withdrawal may occur if unsafe or nonconforming articles are accepted under the quality system.
7. The Director General must approve any changes to the address shown in this approval.
8. The Manufacturer must maintain its quality system in continuous compliance with the requirements of CASR Part 21.307. The Manufacturer must also ensure that each article conforms to the approved design data and is safe for installation on type certificated products.
9. The Manufacturer as PMA holder has the privileges specified within the PMA letter and supplement.
10. The Manufacturer must report in a timely manner to the DGCA information concerning service difficulties on any article produced under this approval. The Manufacturer also report any failures, malfunctions, and defects that are required to be reported in accordance with CASR Part 21.3.

11. All technical data required by CASR 21.303(a)(3) for the articles to be produced in accordance with this approval, must be readily available to the DGCA at the facility where the articles are being produced.
12. The Manufacturer must notify Director General immediately in writing of any changes to the quality system that may affect the inspection, conformity, or airworthiness of the articles approved in this letter.
13. The Manufacturer must produce all articles in accordance with Part Manufacturing Approval (PMA) PT. Batam Aero Technic Quality Manual No.BTPMA-QMS-01, Rev.C, dated 15 April 2025, that has been presented as evidence of compliance with CASR Part 21.307. Accordingly, any revision to these data must be submitted to the Director General.

On behalf of Director General of Civil Aviation

M. Mauludin

Director of Airworthiness and Aircraft Operation
